Public Notice of Application for Permit

Regulatory Functions Branch
Post Office Box C-3755
Seattle, Washington 98124-2255
Telephone (206) 764-3495
ATTN: Arlie Winther, Project Manager

Public Notice Date: 12 May 1986
Expiration Date: 12 June 1986
Reference: 071-OYB-2-010666
Name: Val Vue Sewer District

Interested parties are hereby notified that application has been received for Department of the Army permit in accordance with Section 10 of the Rivers and Harbors Act of March 3, 1899, and Section 404 of the Clean Water Act for certain work described below and shown on the enclosed prints.

APPLICANT - Val Vue Sewer District
Post Office Box 6063
14816 Military Road South
Seattle, Washington 98168
ATTN: T. J. Matelich, Manager
telephone (206) 242-3236

LOCATION - In the Duwamish River near Seattle, King County, Washington.

WORK - Install sewerline crossing and place approximately 100 cubic yards of backfill.

PURPOSE (PER APPLICANT) - Provide sanitary sewerline for a recreational center.

ENDANGERED SPECIES - Preliminary determinations indicate that the activity will not affect endangered species, or their critical habitat, designated as endangered or threatened (Endangered Species Act of 1973). Formal consultation under Section 7 of the Act is not required.

CULTURAL RESOURCES - Presently unknown archeological, scientific, prehistorical or historical data may be lost or destroyed by work to be accomplished under the requested permit. The work is not located on a property registered in the National Register of Historic Places.

PUBLIC HEARING - Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for public hearings shall state, with particularity, the reasons for holding a public hearing.

EVALUATION - The decision whether to issue a permit will be based on an evaluation of the probable impact, including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may

071-OYB-2-010666

be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered, including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shore erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, consideration of property ownership, and, in general, the needs and welfare of the people.

ADDITIONAL EVALUATION - The State of Washington is reviewing this work for consistency with the approved Washington Coastal Zone Management Program.

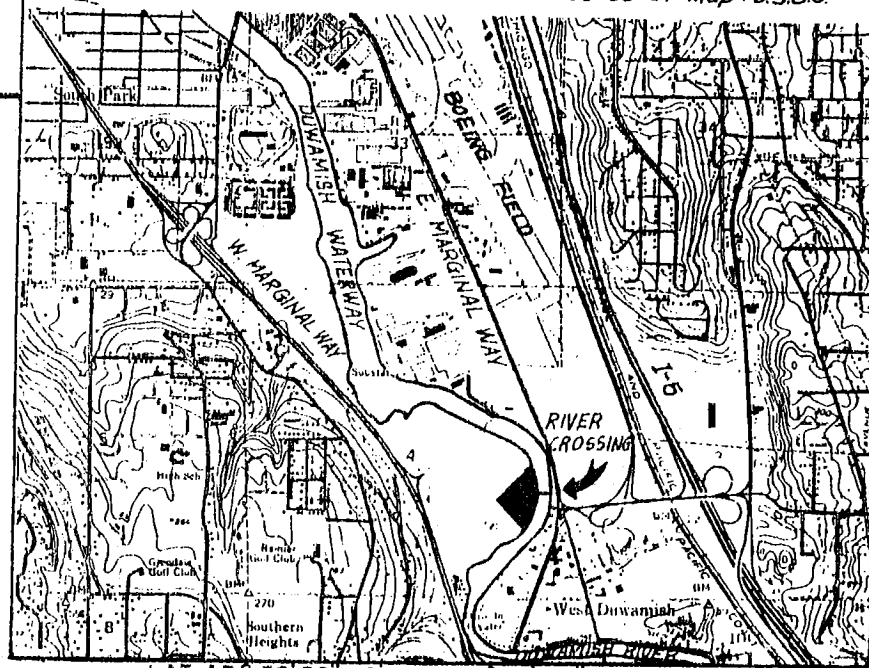

The evaluation of the impact of the activity on the public interest will include application of the guidelines promulgated by the Administrator, EPA, under authority of Section 404(b) of the Clean Water Act.

COMMENT AND REVIEW PERIOD - Comments on these factors will be accepted and made part of the record and will be considered in determining whether it would be in the best public interest to grant a permit. Comments should refer to the reference number shown above and reach this office, Attn: Regulatory Branch, not later than the expiration date of this public notice to insure consideration.

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY

Notice of Application for
Water Quality Certification
and for
Certification of Consistency with the
Washington Coastal Zone Management Program

Notice is hereby given that a request is being filed with the Department of Ecology for certification that a proposed discharge resulting from the project described in the Corps of Engineers Public Notice No. 071-0XB-2-010661, will comply with the applicable provisions of State and Federal Water Pollution Laws.

Notice is also given that a request is being filed with the Department of Ecology for concurrence that the above referenced project will comply with the Washington State Coastal Zone Management Program and that the project will be conducted in a manner consistent with that Program.

Any person desiring to present views pertaining to the project on either or both (1) water pollution or (2) the project's compliance or consistency with the Washington State Coastal Zone Management Program may do so by providing written comments to the Department of Ecology, Inter-Agency Operations Section, Mail Stop PV-11, Olympia, Washington 98504.

Please note, state regulation requires a minimum of 20 days of public notice. The comment period will begin May 12 - 1986 (date of publication) and run until final comments are received from reviewing state agencies and the local government(s).
